## A Letter from the Activity Director:

In our activities department, we bring the fun and happiness to keep our residents engaged. We are creative when it comes to hosting and planning our special events. We love to see our residents' reactions when they get the chance to get up and dance when we have our special events and entertainment. We are starting to do a lot of fun activities at The Grove at Cherry Hill, like scheduling Pet Therapy and an Alpaca for our residents to see and feel the animals and their different textures. We also had our first magic show to let the residents experience different things.

We also have movie nights twice a week in our movie theater rooms.

To be an activities director isn't all fun and games. It's hard work because we have to see and monitor every little reaction that comes from our residents during activities programs. We are the second eyes for the nursing department to keep our residents safe and healthy all the time. We love our residents, and we try to do our best to keep them happy.

— Sincerely,
